

Lothian Moth Recording Provisional Grading System

The Vice County recorder may query records from recorders, particularly inexperienced trappers. Please do not be offended by this. It is very important that records on the central database are accurate and we are anxious to avoid unverified records of certain difficult species being entered. Many species are common and easy to identify, but many can only be identified by genitalia examination. Between these two extremes are moths whose identification may be tricky, and records from experienced observers may be accepted more easily than those from the new moth trapper.

The checklist shows the level of record required for each species of macro moth in the Highlands and gives an indication which records are likely to be queried. The number following each moth is explained below:

Grade 1
These are moths which are believed to be widespread and common in West Lothian. They will be easily identifiable by inexperienced observers. Records are unlikely to be queried.
Grade 2
Moths of a more restricted distribution or identification may be more difficult due to some confusion species. Most observers will have little trouble with these and again records are unlikely to be queried unless they fall outside the species' normal habitat or flight time.
Grade 3
Moths which may be much harder to identify or which may be very local in the county. Rare moths which may be confused with commoner species. Many pugs fall into this category. Records from inexperienced recorders will be queried. A photograph or a voucher specimen likely to be required.
Grade R
Rarities and species not recorded in the county. A good quality photograph or a voucher specimen is mandatory unless the observer is very familiar with the species.
Grade G
Genitalia examination is mandatory to exclude related species.

The Date Last Seen column shows when (if ever) the last record was seen. The table was last updated in December 2008.

Code	Taxon	Common Name	Grade	Last year seen
0006	Eriocrania subpurpurella	Eriocrania subpurpurella	3	2008
0014	Hepialus humuli thulensis	Ghost Moth	1	2008
0015	Hepialus sylvina	Orange Swift	2	2008
0016	Hepialus hecta	Gold Swift	2	2008
0017	Hepialus lupulinus	Common Swift	2	2008
0018	Hepialus fusconebulosa	Map-winged Swift	2	2008
